

WHAT IS 100 CHURCHES?

Fostering Our Future 100 Churches initiative is a community-based, church-led partnership designed to solve the Northeast and Central Florida foster care problem.

OUR MISSION

♥ Protect Children

♥ Support Families

♥ From Crisis to Thriving

♥ From Chaos to Community

WHAT WE DO

We equip churches to provide **professional pre-licensing training** for foster care ministries. FOF provides a faith community-based program to recruit and train volunteers and families to foster through local churches, **meeting the need for foster families** and **volunteer support** in their community.

The foster care problem today can be defined by three words:

- **CAPACITY:** There are not enough foster families around the country for the number of children who need one.
- **STABILITY:** Children in the foster care system will transition to four different foster homes on average per year; and the average foster family will only remain a licensed foster home for one year due to the lack of support, training, spiritual guidance, and pastoral care offered to the family.
- **QUALITY:** We need enough foster families so that when a child comes into foster care we can match a child's needs with a family's strengths, providing the most responsive environment to the child.

We offer a **state-of-the-art web-based platform** for volunteer management. Each church, foster family, and foster team member is entered for easy reporting. Visit **FOFcommunity.com**.

THE NEEDS ARE GREAT, AND THE WORKERS ARE FEW.

Not all are called to foster, but **EVERYONE** can do **SOMETHING!**
